

Mark Hinojosa

Full-Stack Web Developer

CELL: (956) 357-9036 • E-MAIL: markhinojosa1212@agmil.com • Website: <http://fullstackdevatx.com/> • [github:https://github.com/MarkHinojosa](https://github.com/MarkHinojosa) • Austin, TX • 78728

SKILLS

- Proficiency with **Git, React.js, Redux, Express, Javascript, Node.js, HTML, and CSS**
- Experience with **SASS** based CSS frameworks like **Semantic** and **Bootstrap**
- Experience with both **Windows** and **Linux** based Operating Systems

PROFILE

A technical person at heart. I love to learn new things and putting these new tools to the test. My abilities flourish most in team driven projects and culture as I enjoy contributing my ideas, building on others ideas and aiding other members of the team as needed.

EDUCATION

Austin Coding Academy 2017 - 2018

Full-Stack Web Development

Developed web applications that involved **React.js, React-Redux, and React-Router** to handle the front-end while **Express.js, Node.js, Babel** and **MongoDB** handled the back-end. Apps then deployed to Heroku.

Texas State Technical College 2006 - 2009

Mechatronics Technology

As a final project, I lead a three man team that integrated knowledge of AC, DC, Pneumatics, Hydraulics and programmable logic controllers to assemble and program multiple automated processing stations which simulates an industrial assembly line.

EXPERIENCE

Hercules/ Anthem Gold (July 2018 - Current)

Fullstack React- Native Developer / Lead QA

Developed both front-end and backend solutions for a mobile Decentralized Application which is available on the Google Store. Solely created MVP's that would be used to garner funding from large multi-national corporations. Implemented a payment system on the Ethereum Blockchain using the Edge wallet. I also had a role of managing, QA-ing and implementing contract work. Technologies used: **Git, GitHub, React-Native, Redux, Edge Wallet, Firebase DB, Firebase Storage, StorJ, IPFS, and Factom.**

Austin Coding Academy (April 2018 - July 2018)

Teachers Assistant

After excelling in my classes and showing initiative to help my struggling classmates, I was given the opportunity to become a teachers assistant. In this role, I help new web developers with the understanding and utilization of Git, HTML, CSS, and Javascript.

Time Warner Cable/ Spectrum

Residential Cable Technician

My experience in the telecom world as a residential technician included skills of gathering and utilizing technical knowledge to correctly troubleshoot a customers internet or cable service. My quality workmanship, customer service and attention to detail garnered me the lowest repeat's in the state of Texas.

Chevron - Mid Continent Business Unit (March 2010- September 2015)

Field Operations Specialist

My hands on role within Chevron involved being responsible for maintaining the operation of multiple oil/gas production facilities. My secondary job duties had me dealing directly with representatives of third party companies for sales, facility repair and quality assurance of product and services.
